

Year 10 - Learning Checkpoint 1

Find - Fix - Check - Target

Name: _____ Class: _____ Date: _____

Topic: learning checkpoint review and reflection

WAGBA: use feedback to improve one answer and set one useful target.

Knowledge: recall the rule. Skills: correct and check an answer.

Understanding: explain why the correction works.

Keywords: feedback, marking point, correction, evidence, target.

Challenge: show the idea works in one similar example.

Question: _____ Marks for this question (optional): ____ / ____

1. FIND - What needs improving?

Underline it on your marked paper. Copy only the important part here.

I missed / misunderstood...

2. FIX - Write a better answer or corrected code

Use this question's marking points. Keep the meaning in your own words.

This works because...

3. CHECK - Show that you understand

Highlight the marking point you now meet. Try one similar value, example or trace. Record your check and what it shows.

4. TARGET - One action for next lesson

Circle the focus: Knowledge (recall) / Skills (apply) / Understanding (explain)

Next lesson, I will practise...

I will know I am improving when...

Teacher check: not yet / with support / independently. This is not a grade.

Write, point to or read your explanation. Teacher: revisit this target next lesson.

Full marks? Ask for one similar example; explain and apply the credited idea.
